"In the hospital you get used to lots of things.
You get used to staying in bed when you don't want to,
And feeling your back itch when you can't scratch it.
You get used to having your bath in bed and even going to the toilet in a bedpan.
You get used to missing your dog and missing your friends.
You get used to listening to babies cry, and seeing your mommy and daddy just when they want to come to visit you.
That's quite a lot of getting used to."
